

Summer '23 ENRICHMENT CAMPS

MOLINE SCHOOL DISTRICT REPORT

Spring Forward partnered with the Moline School District to offer a summer camp at no cost to families for Logan and Roosevelt Elementary School students first through sixth grade. The five-week camp, offered to students in need of an academic boost combined academics with fun and engaging activities.

Summer camp can replace the historical mandatory summer school model. Spring Forward camps have proven this over the past ten years by welcoming thousands of students to camps with an overwhelming majority making academic gains.

Academics

One of the goals for summer camps was to help fill in the learning gaps and equip children with new skills. Morning instruction included math and reading in small groups with teachers using the district's curriculum to provide a smooth transition from summer to 2023-24 school year.

BE THE LIGHT

Our camp theme was "Be the Light" in memory of friend and former Ascentra Credit Union CEO Dale Owen. Dale was a champion of summer learning and inspired all to get involved and pay it forward, leaving us with a simple message of inspiration to "Be the Light".

Afternoon Enrichment

Community based organizations provided enrichment activities designed to provide students with opportunities to learn beyond the traditional classroom setting. Campers participated in a broad range of activities that included yoga, art, dance, cooking, and music.
